

# *The Quantum Nature of Integral Life*

## *Understanding Gender*

*Archangel Metatron via James Tyberonn*

*Greetings! I am Metatron, Angelic of Light! I am joined by Tyberonn of Crystalline Service, and we warmly welcome each of you, in a vector of unconditional love.*

*And so we speak on the bio format & nature of Duality Sojourns, of Life, and the spectra of consciousness within Divine Light. That you term as Divine Feminine & Masculine.*

*Masters, in higher self, in true soul essence, you are non-gendered. In essence, your Divine Aspect is one of non-polarity. In your initial 'Godling' sojourns into the earth plane, you entered in nonphysical, thought-projection format. Life, Dear Humans, is multi-facted, multi dimensional...quantum in nature.*

### *In the Beginning*

*In this initial phase, the earth was experienced as a nonpolar plane. Although the 'Godlings' could project themselves aspectually into the 4 earthen elements, including biological and mineral life, it was temporal.*

*Over eons, that may approximate to hundreds of millions of your years, from a linear aspect, you began manifesting more physical bodies. These varied in format, but most were integral, a format of one body having the attributes of both male and female. There was no sexual activity. Each embodiment was capable of birthing.*

*Such format occurred for timeless eons. The first separation into gender, occurred after ten million years of androgynous manifestation into the Omni-Earth planes...the initial separation into physical genders occurred, approximately 107,000 years ago. The separation into male/female occurred for myriad reasons, key among these is that the 'Duality-Curriculum' offered growth in the matrix of opposites in the material plane of matter.*

### *Entering Duality*

*Entering into the more dense dimensional frequency levels required for biological physicality was, for humanity, a double-edged sword, so to speak. It opened the*

*curriculum, and credentialed course of Duality...the University of Earth. For physicality into biological aspect presented a complex rubik of challenges.*

*Dear Humans ...All of you, each and every one of you will experience physical life in duality planes of the Omni-Earth, in every race & biological-gender format. You will have threads of earthen sojourns as both male and female. You will devote lifetimes to experiencing the attributes of both...and in time, you are required to merge them. Spirits have no gender. Masters, every individual soul upon earth has been both female & male, but generally incarnates in most lives as one or the other gender.*

*It is part of the duality program of earth to experience the yin/yang, the male and female biology. As a protocol, memory of these are not retained, in order to avoid over connection to one gender. Generally speaking, you will be in one gender about 75% of your earthen sojourns, for example one may choose to be female in 3 out of 4 lifetimes, or vice versa.*

### ***Over Association***

*When a soul becomes over identified with the attributes of either male or female, a choice will be made by the higher self to a change of direction, shifting genders to regain balance. However it is important to note that the traits of both are within each of you, in what is termed as animus and anima. Each male will have an innate inner personification of the soul's female nature, and each female will have integral soul facets of an inner male identity.*

*It is essential for you to understand, that the anima, or female nature in the male is, in essence, the collated psychic memory assimilation which identifies the prior female lifetimes the individual soul collective has chosen.*

*Accordingly, the attributes considered as female, in your 3d world, are therefore accessible to the male nature. The male is able to tap into this energy. And Masters, this is an important check & balance, swerving as an important safeguard, preventing the male from overly attaching with whatever present time, present-life programmed cultural male characteristics that society teachings have been imposed upon him. The same access is of course available to females, accessing the animus collective of past male lifetimes.*

### ***Harmonic Union in Duality***

*Dear Hearts, as your life continues to unfold, your individual expressions & emotions will evolve, will change, shaped & reformed by the thoughts, emotions & experiences that you draw to yourself. Your present culture and political environ establishes the concept that you must fight to survive in the 3d world. So keep in*

*mind, and this is important to really comprehend...male and female are not opposites, not in opposition.*

*In the current phase of extreme dividedness, of stark polarity, there can be a skewed, misplaced tendency of negative thrust in which males become insulated, inordinately aggressive & insensitive, and females can become overly defensive, even toxically vengeful of men. Thus creating obstacles & imbalance. It is interesting to note that some of the souls involved in the more extreme political movements of gender identification & female equality, are actually reincarnated men, seeking balance by attempting to restore 'rights' that they themselves played a role in abusing.*

*This process is a way of balancing, for indeed, many of the civil rights activist of the recent decades were former slave owners. Spirit has no race, nor gender, and every soul will experience each in the power lessoning journey of Duality.*

### **Lost Teachings**

*There were portions of the teachings of Jesua ben Josef, the Christ figure of Christianity, which dealt specifically with sexuality. However, in the political patriarchal societies of 2 thousand years ago, these were altered, and removed, considered far too liberal, even blasphemous and were deleted from the edited works of biblical texts formulated politically by the patriarchal Council of Nicea in Roma-Greco Constantinople.*

*Although humanity assign gendered names to Archangels, the Angelic Realm is androgenous, in your terms, like you, neither male or female. Humans tend to create images of Angels that are responsible to some degree for the misconceptions around their true nature. Your paintings and murals depict either muscular male figures, females with feathered wings, or a host of miniature cherubs. Angels are neither male nor female in their Beingness, neither are you !*

### **Anima & Animus**

*The anima & animus are, symbiotic, synergetic and archetypically symbolic. The two combined are your true essence. And in harmonic union, represent the integral 'wholeness' of your being, your soul. The two aspects are symbiotic, representing varied desires, attributes & diverse abilities. In optimal harmonics, the male-female aspects act as a stabilizing factor, a balancing tool.*

*The male persona needs, indeed yearns for the nurturing intuitive wisdom of the 'female anima', as it contains the latent characteristic of the integral self....yet there is a culturally induced struggle for the male to release expression of the anima. Likewise the female experiences the obstruction of societal repression to release the aggressive aspect of the male anima within. Both female & male experience a juxtaposition of the*

*animus & anima, respectively. It creates a constructive tension, that allows the female to take appropriate assertive action, and for the male to temper aggression into more discerned, creative action.*

*And let us be clear, aggression is a requisite element of earthen sojourns. Humanity sadly confuses violence with aggression, and do not understand or define aggression, as forward movement, as a powerful action of creativity. But let us be clear, when we speak of 'aggression', we do not mean violence. Violence is failed aggression. Aggression in our stance and view is better defined as the core energy of thrust. And such thrust is a vital component of overcoming the obstacles of duality. Such thrust is the driver of your expansion and growth. Indeed, the very ability of a flower to push thru the soil and explode into beautiful blossom, is an act of creative active aggression.*

### **Cultural Transition & Caution**

*Dear Ones, the curriculum of third dimensional duality is a very unique vector of 'reality', in which action is required to complete the course. In creative aggression, each soul taps into a vast reservoir of unimaginable energy. The energy field itself is neutral, it is how it is utilized that determines creative or destructive use.*

*Your cultural paradigm transition is quickening, rapidly changing in the energy of the New Earth. It is absolutely requisite that equality be established, in terms of both gender and race. However, one must be discerning of political association and activism. Political activism is in a rather perilous phase of astrologically influenced extremism. Zealotry & fanaticism are emerging in a negative thrust... surfacing in the current times of Crucible Astronomy, (and in a worse case scenario) ... morphing into hate driven by greed, power-lust & fear. Beware the wolf in sheep's clothing...for it is a phase of chaotic energy presently on the earth....and this will increase in intensity until 2026.*

*Be cautious. In a manner of speaking, in your present phase of 'Crucible Astrology', the metaphoric 'Pandora's box' is temporarily open to allow the surfacing of all unresolved energies. And in this timing of extreme polarity, negativity can accelerate, and infiltrate religion and indeed politics. Fear can be accelerated and exacerbated in this phase, instigating extremes and hatred.*

*Masters, when opposition turns into hatred, the hate itself can and will attach to you, and take a devastating toll. Regardless of any self-serving delusional mirage of justification. Deep negativity is a tar-baby, it attaches and destroys. Hatred will follow you, lifetime after lifetime until you realize that hate itself is the true, often disguised, unrecognized enemy, in your world of duality.*

*Dear Humans, in earthly sojourns within the present paradigm, sexual identification is important, but must be in balance. We say again, over-identification, over attachment to either gender, can lead to imbalance. Over association can eventually result in gender polarization, and extreme positioning to only one aspect can lead to distorted behavior, in which the higher needs and potentials of the individual are thwarted, and worthy lifetime goals, lessons and ideals are hindered.*

### ***A Return to Wholeness***

*Humanity will in time, return to androgyny. It is the true nature of your beingness, and the inhabitants of the earth will transform into this aspect. It will represent what your religious texts refer to as the 'Millennium of Peace', in which the analogy of 'Lucifer' the place holder of duality, will be tied. In valid interpretation, this refers to the Omni-Earth exiting duality, and returning to the state of non-polarity. Your Edgar Cayce spoke of such as phase. Indeed, it was how you entered, and how you will complete. It is representative of the graduation from the 'University of Duality Earth'.*

### ***Closing***

*In 2019, Year Seven of the New Earth, humanity are entering an expansive stage of extra and intra dimensional access. This is due in no small part to the galactic positioning of the Earth at this time that mankind refers to as the Ascension. The Earth, and the Milky Way Galaxy have entered an extreme illumination cycle, a 'no-spin zone' which cast no shadows. It is an energy of liberation & truth.*

*The energy that is being liberated, flowing into your reality, has already changed your world, and will continue to do so. Such massive liberations of energy will in the linear dance of time, begin to unify the whole planet in peace. It will occur.*

*However, more cleansing will take place, as the scenario of a world of harmony & equality will not happen before regional shifts & what you term as natural disasters occur. These will not be a global reboot...and are a necessary transition. And when the new era reaches its energy vector in linear movement, it will represent the first such time within the planet's history where there was peace with equality for all. And this will be a monumental graduation, for although there have been various periods that were peaceful, but there was no equality.*

*Embrace your identity, embrace every moment of life you have on this beautiful garden planet. The same principles and divine concepts which created the Cosmos,*

*and its varied dimensions and planes, also creates this eternal moment, in the 'Now' we you share.*

*In kind, concepts and moments beyond the present will inspire the future which all of humankind will share.*

*New ideas of noble altruism offer powerful creative paradigm shifts., provide new understandings that intrigue & inspire seekers of truth & savant dreamers. And the Divine, the Celestial 'First-Cause' that was in place before space & time ... will yet 'Become' manifest.*

*I am Metatron, with Tyberonn of Crystalline Service, and we share with you these Truths. You are Beloved.*
